

JOEL GORDON'S

H A P P Y H A B I T A T

The Happy Habitat is a Kansas City-based "chordless" jazz quartet. The group performs almost all original music, composed by the members of the band. The goal of the Happy Habitat is to express the humor, quirks, and joy that music can bring through storytelling, harmony, and improvisation. JGHH has featured prominent young saxophonists including Adam Larson, Stephen Martin, and Artie Black.
